## Volume I: Master Plan

Acknowledgements .....	ii
Executive Summary .....	iii
Table of Contents .....	viii
List of Tables .....	x
List of Figures .....	xi
Acronyms and Abbreviations .....	xii
<b>1 Master Plan Development and Document Organization .....</b>	<b>1</b>
1.1 Northwest Power and Conservation Council's Three-Step Process .....	2
1.2 Project History and Master Plan Development .....	3
1.3 Overview of Master Plan Document Organization .....	10
<b>2 Critical Research Needed for Step 2 Planning .....</b>	<b>13</b>
2.1 Confirm Water Supply .....	14
2.2 Implementation of Radio-Telemetry Study .....	14
2.3 Implementation of Research on Live-Capture Broodstock Gear .....	15
<b>3 Consistency with Council Requirements and Comparison to Regional Guidelines .....</b>	<b>17</b>
3.1 Consistency with Council's Master Planning Requirements .....	18
3.2 Comparison to Independent Scientific Advisory Board Recommendations .....	20
3.3 Comparison to Landscape Hatchery Model .....	21
<b>4 Historical and Legal Rationale .....</b>	<b>25</b>
4.1 Confederated Tribes of the Colville Indian Reservation .....	26
4.2 The Big Context .....	27
4.3 Legal Wrangling, Reservations and Treaties .....	27
4.4 Lost Salmon .....	29
4.5 Lost Mitigation .....	32
4.6 Legal Challenges to Rights Secured in the Executive Order and Agreements .....	35
4.7 Ripples in a Pool Without Many Salmon .....	36
<b>5 Ecological Rationale .....</b>	<b>39</b>
5.1 Upper Columbia River ESU Summer/Fall Chinook Salmon .....	40
5.2 Factors Limiting Upper Columbia River Summer/Fall Chinook .....	45
5.3 Summary Ecological Rationale .....	46
<b>6 Local Context .....</b>	<b>47</b>
6.1 Description of the Okanogan Subbasin .....	48
6.2 Status of Current Environmental Assessments .....	52
6.3 Other Anadromous Fish in the Okanogan Subbasin .....	53
6.4 Resident Fish .....	54
6.5 Okanogan Subbasin Coordinated Planning Activities .....	54
6.6 Current and Planned Management Activities .....	56
6.7 Relevant Recent and Ongoing Projects and Programs .....	60
<b>7 Regional Context .....</b>	<b>67</b>
7.1 Out-of-Subbasin Considerations .....	68
7.2 Current and Planned Regional Management Activities .....	68
<b>8 Alternatives Considered .....</b>	<b>71</b>
8.1 Basis for Choosing Alternatives .....	72
8.2 Strategic Alternatives Summer/Fall Chinook .....	72
8.3 Other Alternatives Considered .....	73
<b>9 Chief Joseph Dam Hatchery Program Summer/Fall Chinook Components .....</b>	<b>75</b>
9.1 Overview of Proposed Summer/Fall Chinook Programs .....	76
9.2 Use of New and Existing Facilities .....	77
9.3 Size of Programs .....	78
9.4 Integrated Recovery Program .....	79
9.5 Integrated Harvest Program .....	84

9.6	Description of Production Program .....	86
9.7	Potential Ecological and Genetic Effects .....	88
9.8	Program Contingencies and Adaptation Loop .....	89
<b>10</b>	<b>Monitoring and Evaluation Program Conceptual Design .....</b>	<b>93</b>
10.1	Chief Joseph Dam Hatchery Program Monitoring and Evaluation Program Goals .....	95
10.2	Relationship to Other Local and Regional Monitoring and Evaluation Programs .....	95
10.3	Description of Conceptual Monitoring and Evaluation Program .....	95
<b>11</b>	<b>Facility Conceptual Design .....</b>	<b>103</b>
11.1	Water Supply .....	104
11.2	Major Project Elements .....	108
11.3	Design Criteria .....	109
11.4	Chief Joseph Dam Hatchery Program Facility Overview .....	111
11.5	Hatchery Site Considerations .....	117
11.6	Chief Joseph Dam Hatchery Facility Components .....	118
11.7	Incubation and Start Tank Rooms .....	119
11.8	Support Facilities .....	120
11.9	Fish Transfer and Outmigration Facility .....	121
11.10	Effluent Treatment Facilities .....	122
11.11	Administration and Visitor Areas .....	123
11.12	Staff Housing .....	124
11.13	Alternatives Considered in Development of Conceptual Design .....	125
<b>12</b>	<b>Cost Estimates .....</b>	<b>129</b>
12.1	Overview of Cost Estimates .....	130
12.2	Cost Estimates for Facility Planning and Design .....	132
12.3	Construction Cost Estimates .....	133
12.4	Ten-Year Cost Estimates for Operations and Maintenance .....	137
12.5	Cost Estimates for Conceptual Monitoring and Evaluation Program .....	140
12.6	Costs Summary .....	142
<b>13</b>	<b>Proposed Spring Chinook Salmon Programs .....</b>	<b>145</b>
13.1	Chapter Overview .....	146
13.2	Overview Ecological Rationale for Inclusion of Spring Chinook .....	147
13.3	Local and Regional Context Relative to Spring Chinook Components .....	151
13.4	Alternatives Considered in Developing Spring Chinook Components .....	152
13.5	Framework for Okanogan Subbasin Spring Chinook Programs .....	153
13.6	Overview of Chief Joseph Dam Hatchery Program Spring Chinook Programs (Phase I, Step B) .....	154
13.7	Description of the CJDHP Spring Chinook Production Program .....	159
13.8	Potential Ecological and Genetic Effects .....	160
13.9	Conceptual Monitoring and Evaluation Components Specific to Spring Chinook .....	162
13.10	Conceptual Design of Separable Spring Chinook Components .....	163
13.11	Support Facilities Specific to the Spring Chinook Components .....	171
13.12	Cost Estimates for Spring Chinook Components .....	171
13.13	Summary Discussion .....	177
<b>14</b>	<b>References .....</b>	<b>179</b>

**Volume II: Master Plan Appendices**

Appendix A:	Letters of Support for Chief Joseph Dam Hatchery Program
Appendix B:	Chief Joseph Dam Hatchery Program Cost Estimates Detail
Appendix C:	Okanogan River Summer/Fall Chinook Salmon Hatchery Genetic Management Plan
Appendix D:	Okanogan River Spring Chinook Salmon Hatchery Genetic Management Plan
Appendix E:	Immediate Research Critical to the Design of Chief Joseph Dam Hatchery Program
Appendix F:	Chief Joseph Dam Hatchery Water Supply Report
Appendix G:	Chief Joseph Dam Hatchery Program Conceptual Design
Appendix H:	Conceptual Design for Chief Joseph Dam Hatchery Program Monitoring and Evaluation Program
Appendix I:	Chief Joseph Dam Hatchery Program Steering and Design Committee
